1. Introduction

In an era marked by technological advancement and global connectivity, the power of the digital realm in addressing pressing global challenges cannot be overstated. The United Nations' Sustainable Development Goals (SDGs) serve as a blueprint for collective action towards a sustainable future for all. Among these goals, the second SDG, Zero Hunger, stands as a crucial imperative in the fight against poverty and malnutrition worldwide.

In alignment with this noble cause, our group embarked on a mission to contribute meaningfully to the realization of the Zero Hunger goal through the development of a website. This website serves as a platform dedicated to raising awareness, facilitating action, and fostering collaboration towards eradicating hunger and ensuring food security for all.

Throughout the project, each member of our team played a pivotal role in bringing our vision to life. My contributions focused on crafting key components of the website, including the user profile page, team page, and a content page aimed at providing informative resources to visitors.

As we navigate through the intricacies of our project journey, it is our hope that this report serves as both a testament to our commitment to the SDGs and a source of inspiration for future endeavors aimed at creating a more equitable and sustainable world.

1.1. Team Members and Task Allocation

Student Name	**Student Role**
Huzrin Hussain	Student 1
Thanzeel Bin Kaiff	Student 2
Saad Mazhar	Student 3
Ahamed Aathif	Student 4

1.2. Website topic/theme

Website Topic – Zero Hunger

Website Name – The Hunger Gap

1.3. Contributions

Group Coursework Meetings		
1	**Date & Time**	3rd March 2024 | 12.30pm
	Objective:	Coursework planning & Student role assigning
	Attended:	Every group member attended this meeting.
	Your Contribution:	• Took the Student role 3. Suggested Zero Hunger as our website topic. • Researched and presented statistics on global hunger to support the choice of Zero Hunger as the website topic.
2	**Date & Time:**	13th March 2024 | 12.30pm
	Objective:	Discuss website logo and additional content webpage
	Attended:	Every group member attended this meeting.
	Your Contribution:	• Provided feedback on selected logo and suggested a theme color for the website. • Researched and compiled a list of potential additional content ideas for the webpage, including infographics, videos, and success stories related to zero hunger initiatives.
3	**Date & Time:**	27th March 2024 | 12.30pm
	Objective:	Discuss various website pages
	Attended:	Every group member attended this meeting.
	Your Contribution:	• Provided HTML, External CSS, and External JavaScript codes for the Navigation Bar as per coursework specifications. • Collaborated with team members to brainstorm and refine the design and layout of the presentation page to effectively communicate the website's mission and objectives.
4	**Date & Time:**	30th March 2024 | 7.30pm
	Objective:	Progress Meeting
	Attended:	Every group member attended this meeting.
	Your Contribution:	• Provided feedback and opinions on layout, presentation, and codes. • Conducted a thorough code review, identifying and resolving several bugs and inconsistencies in the website's frontend code to enhance user experience and functionality.
5	**Date & Time:**	3rd April 2024 | 12.30pm
	Objective:	Finalizing
	Attended:	Every group member attended this meeting.
	Your Contribution:	• Finalized HTML, CSS, JavaScript, and validated without errors. • Prepared and delivered a comprehensive final presentation summarizing the project's objectives, achievements, and future plans for sustainability and growth.

2. Technical Discussion

2.1. Implementation

2.1.1. User Profile

For implementing the User Profile page, I chose to utilize a combination of HTML, CSS, and JavaScript to create a dynamic and visually appealing layout that showcases user information effectively.

Approach:

HTML Structure: I began by structuring the HTML markup to define the various elements of the user profile, including 12 prompts and any additional details such as contact information.

CSS Styling: Using CSS, I applied styles to the HTML elements to enhance the visual presentation of the user profile. This included defining font styles, colors, layout positioning, and responsive design to ensure optimal display across different devices.

JavaScript Functionality: To add interactivity to the user profile page, I incorporated JavaScript to enable features such as displaying dynamic content based on user preferences or interactions.

Challenges Encountered:

One challenge encountered during the implementation of the User Profile page was managing user input validation and data persistence. Addressing this challenge involved implementing user validation using JavaScript to ensure that user-entered data is formatted correctly.

Lessons Learned:

Through overcoming this challenge, I gained a deeper understanding of communication and data handling techniques, reinforcing the importance of robust validation and security measures in web development.

```
const prevBtns = document.querySelectorAll(".btn-prev");
const nextBtns = document.querySelectorAll(".btn-next");
const progress = document.getElementById("progress");
const formSteps = document.querySelectorAll(".form-step");
const progressSteps = document.querySelectorAll(".progress-step");

let formStepsNum = 0;

nextBtns.forEach((btn) => {
  btn.addEventListener("click", () => {
    formStepsNum++;
    updateFormSteps();
    updateProgressbar();
  });
});
```

2.1.2. Team

Approach:

HTML Structure: I designed the HTML structure to represent the team page, including sections for team members' profiles, their roles, and brief descriptions. Each team member's profile was structured within a container div, containing their name, role, bio, and possibly a profile picture.

```
<div class="column">
  <div class="card">
    <div class="img-container">
      <img src="Huzrin_Profile_Pic.jpg" />
    </div>

    <h3> Mohamed Huzrin </h3>
    <p> UoW ID - W2053220 </p>
    <p> IIT ID - 20222269 </p>
    <p> Tasks - Created the Splash Screen, Shop & a Content Page </p>

    <div class="icons">
      <a href="https://twitter.com/"> <!-- Huzrin Hussain -->
        <i class="fab fa-twitter"></i>
      </a>
      <a href="https://www.linkedin.com/in/huzrinhussain/">
        <i class="fab fa-linkedin"></i>
      </a>
      <a href="https://github.com/"> <!-- Huzrin Hussain -->
        <i class="fab fa-github"></i>
      </a>
      <a href="mailto:huzrin@iit.ac.lk"> <!-- Huzrin Hussain -->
        <i class="fas fa-envelope"></i>
      </a>
    </div>
```

CSS Styling: CSS was used to style the team page, ensuring consistency with the website's overall design theme. I applied styles to elements such as fonts, colors, layout positioning, and hover effects to enhance visual appeal and user experience.

```
.card {
  box-shadow: 0 0 2.4em #0c4e8b(25, 0, 58, 0.1);
  padding: 3.5em 1em;
  border-radius: 0.6em;
  color: #0c4e8b;
  cursor: pointer;
  transition: 0.3s;
  background-color: #ffffff;
}
.card .img-container {
  width: 8em;
  height: 8em;
  background-color: #0c80e3;
  padding: 0.5em;
  border-radius: 50%;
  margin: 2em auto 2em auto;
}
.card img {
  width: 100%;
  border-radius: 50%;
}
.card h3 {
  font-weight: 500;
}
.card p {
  font-weight: 300;
  text-transform: uppercase;
  margin: 0.5em 0 2em 0;
  letter-spacing: 2px;
```

```
.card {
  box-shadow: 0 0 2.4em #0c4e8b(25, 0, 58, 0.1);
  padding: 3.5em 1em;
  border-radius: 0.6em;
  color: #0c4e8b;
  cursor: pointer;
  transition: 0.3s;
  background-color: #ffffff;
}
.card .img-container {
  width: 8em;
  height: 8em;
  background-color: #0c80e3;
  padding: 0.5em;
  border-radius: 50%;
  margin: 2em auto 2em auto;
}
.card img {
  width: 100%;
  border-radius: 50%;
}
.card h3 {
  font-weight: 500;
}
.card p {
  font-weight: 300;
  text-transform: uppercase;
  margin: 0.5em 0 2em 0;
  letter-spacing: 2px;
```

Challenges Encountered:

One challenge encountered during implementation was ensuring responsiveness across different screen sizes and devices. This challenge was addressed by utilizing CSS media queries to adjust layout and styling based on screen width, ensuring optimal display on various devices.

Lessons Learned:

Through overcoming this challenge, I gained insights into responsive web design principles and techniques, reinforcing the importance of designing websites that adapt seamlessly to different devices and screen resolutions.

2.1.3. Content Page

Approach:

HTML Structure: The content page was structured using HTML to organize and present informative content related to the website's theme, in this case, Zero Hunger. Sections were created for articles, infographics, videos, and success stories, each with appropriate headings and content.

CSS Styling: CSS was used to style the content page, ensuring consistency with the website's design theme and enhancing readability and visual appeal. Styles were applied to elements such as fonts, colors, spacing, and layout to create a cohesive and engaging user experience.

```
<div class="content-about">
    <div class="content-text content-text-primary" style="text-align: center;">

        <div class="content-data">
            <a href="#1" class="content-hire">Local Food Initiatives and Urban Gardens</a>
            <a href="#2" class="content-hire">Food Waste Reduction Campaigns</a>
            <a href="#3" class="content-hire">Community Led Food Banks & Food Sharing Programs</a>
            <a href="#4" class="content-hire">Educational Programs for Food Security</a>
            <a href="#5" class="content-hire">Advocacy and Policy Change</a>
        </div>
    </div>
</div>
</div>
```

2.2. Task completion checklist

3. Webpage Validation Statement

I have validated the following pages using The W3C Markup Validation Service (https://validator.w3.org/):

- User Profile
- Team
- Page with Additional Content

The validation tool has confirmed that all three pages adhere to web standards and are free from errors.

4. Janet

To ensure adherence to Janet regulations, policies, and legal mandates, a website must align with guidelines pertaining to accessibility, privacy, security, copyright, and intellectual property. Compliance entails abiding by Janet policies, relevant legal stipulations, Web Content Accessibility Guidelines, and the General Data Protection Regulation (GDPR). It necessitates the use of secure protocols, respect for copyright laws, and adherence to intellectual property regulations. Key measures include implementing a clear privacy policy, offering user-friendly data control tools, regularly updating security protocols, and seeking legal counsel. This page provides comprehensive information on accessibility, security, copyright, intellectual property, Janet policies, and pertinent regulatory requirements. Additionally, references to utilized resources are provided for further consultation.

5. Self-reflection

State what you enjoyed and did not enjoy about teamwork.

- Working with a team allowed for diverse perspectives and creative input, enriching the project experience.
- Tackling challenges together fostered camaraderie and a sense of achievement upon finding solutions.

State what you learnt about teamwork.

- Effective communication within the team was vital for clarity and coherence in project execution.
- Flexibility in accommodating varying viewpoints and adjusting strategies based on feedback enhanced project outcomes.

State what skills you gained/learnt from undertaking the project.

- Balancing individual tasks with team commitments honed my ability to prioritize and meet deadlines effectively.
- Addressing disagreements constructively and finding compromises contributed to a harmonious team dynamic.

State any strengths about yourself that emerged whilst undertaking the project.

- Taking initiative in organizing team meetings and facilitating discussions showcased my ability to guide and motivate group members.
- Diligently reviewing project components ensured quality outcomes and minimized errors in deliverables.

State any weaknesses about yourself that emerged whilst undertaking the project.

- Struggles in delegating tasks evenly among team members resulted in uneven workloads at times.
- Difficulty in asserting opinions in group discussions occasionally led to acquiescence rather than advocating for alternative viewpoints.

State how you would do things better if you were to undertake the project again.

- Implementing a more structured project timeline and clearer task delegation would streamline workflows and minimize confusion.
- Prioritizing open and regular communication channels within the team would mitigate misunderstandings and foster greater collaboration.

Nourishing Communities </span></h3>

                <p>
                    Community kitchens are revolutionizing the fight against
hunger worldwide. These spaces aren't
                    just about food, they're about unity, empowerment, and
education. By bringing people together
                    from all walks of life, community kitchens empower
individuals and families to tackle food
                    insecurity head-on. From city streets to rural towns, they
create a sense of belonging and
                    resilience. Through cooking sessions, workshops, and
support networks, community kitchens show
                    the power of collective action in building a world where
hunger is history.
                </p>

                <p>
                    Local food initiatives and urban gardens are essential for
supporting the Zero Hunger goal by
                    providing communities with fresh, nutritious food right
where they live. These initiatives not
```

```
                    only increase food security but also promote sustainable
agriculture practices and community
                    empowerment. By growing food locally, communities become
more resilient to disruptions in the
                    food supply chain while reducing their carbon footprint.
Urban gardens, in particular, transform
                    underutilized spaces into vibrant hubs of food production,
fostering a sense of community and
                    self-sufficiency. Ultimately, by encouraging local food
production and distribution, these
                    initiatives play a vital role in creating a world where
hunger is a thing of the past.
                </p>

                <h3><span class="cntent-span"> Food Waste Reduction Campaigns
</span></h3>
                <p>
                    Food waste reduction campaigns are pivotal in combating
hunger and promoting sustainability.
                    Approximately one-third of all food produced globally goes
to waste each year, amounting to 1.3
                    billion tons. By raising awareness and implementing
practical strategies, these campaigns aim to
                    minimize food waste at every stage of the supply chain,
from production to consumption. Through
                    simple actions like meal planning, proper storage, and
composting, individuals and businesses can
                    significantly reduce their food waste footprint, ensuring
that more food reaches those in need.
                </p>

            <div class="content-text">
                <h3><span class="cntent-span"> Community Led Food Banks and
Food Sharing Programs </span></h3>
                <p>
                    Community-led food banks and food sharing programs are
lifelines for millions facing food
                    insecurity worldwide. In the United States alone, food
banks distributed over 4.2 billion meals
                    in 2020. These grassroots initiatives rely on the
generosity of individuals, businesses, and
                    organizations to collect surplus food and redistribute it
to those in need. Beyond addressing
                    immediate hunger, these programs foster a sense of
community solidarity and support, empowering
                    individuals to overcome challenging circumstances
together.

                <h3><span class="cntent-span">Educational Programs for Food
Security</span></h3>
                <p>
                    Educational programs are essential for building long-term
food security and resilience within
                    communities. Globally, 821 million people are
undernourished, with many lacking access to
                    essential knowledge about nutrition, agriculture, and food
preparation. Educational initiatives
                    fill this gap by providing practical skills and
information to individuals and families,
                    empowering them to make healthier food choices, grow their
own food, and effectively manage
                    resources. By investing in education, communities can
break the cycle of hunger and build a
                    more sustainable food future for generations to come.
                </p>
            </div>

            <div class="content-text">
                <h3><span class="cntent-span"> Advocacy and Policy Change
</span></h3>
                <p>
                    Advocacy and policy change are critical drivers of
systemic solutions to hunger and food
                    insecurity. Despite there being enough food to feed
everyone on the planet, millions still
                    go hungry due to structural inequalities and inadequate
policies. Advocacy efforts aim to
                    address these root causes by pushing for policies that
promote equitable access to food,
                    support small-scale farmers, and reduce food waste.
Through grassroots mobilization, lobbying,
                    and public awareness campaigns, advocates work to create a
more just and food-secure world for all.

Food Waste Reduction Campaigns

Food waste reduction campaigns are pivotal in combating hunger and promoting sustainability. Approximately one-third of all food produced globally goes to waste each year, amounting to 1.3 billion tons. By raising awareness and implementing practical strategies, these campaigns aim to minimize food waste at every stage of the supply chain, from production to consumption. Through simple actions like meal planning, proper storage, and composting, individuals and businesses can significantly reduce their food waste footprint, ensuring that more food reaches those in need.

Community Led Food Banks and Food Sharing Programs

Community-led food banks and food sharing programs are lifelines for millions facing food insecurity worldwide. In the United States alone, food banks distributed over 4.2 billion meals in 2020. These grassroots initiatives rely on the generosity of individuals, businesses, and organizations to

Local Food Initiatives and Urban Gardens

Local food initiatives and urban gardens are essential for supporting the Zero Hunger goal by providing communities with fresh, nutritious food right where they live. These initiatives not only increase food security but also promote sustainable agriculture practices and community empowerment. By growing food locally, communities become more resilient to disruptions in the food supply chain while reducing their carbon footprint. Urban gardens, in particular, transform underutilized spaces into vibrant hubs of food production, fostering a sense of community and self-sufficiency. Ultimately, by encouraging local food production and distribution, these initiatives play a vital role in creating a world where hunger is a thing of the past.

Food Waste Reduction Campaigns

Food waste reduction campaigns are pivotal in combating hunger and promoting sustainability. Approximately one-

USER PROFILE

A user profile page is a personalized space on a website or app where users can share information, connect with others, and manage their account settings. It typically includes details like username, volunteering tasks, and contact information and interaction within the platform.

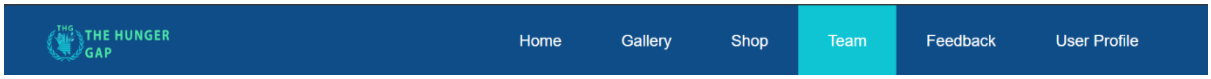

TEAM

The team page, built with HTML and CSS, offers visitors a concise yet insightful overview of the project or organization's members. Through structured layout and visually appealing design, it highlights each team member's role and expertise, fostering engagement and connection. This dynamic platform effectively showcases the collective talent and collaborative spirit driving the initiative forward.

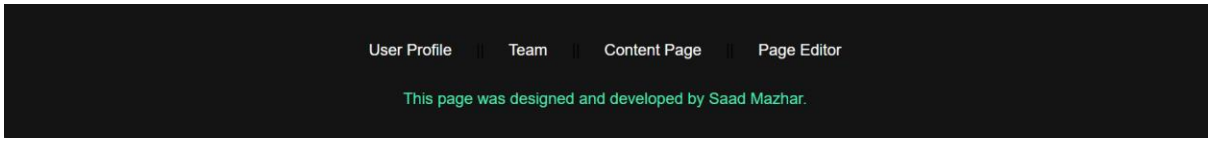

CONTENT PAGE

The content page features same-page navigation, allowing users to explore various sections seamlessly.
